The Port Authority charges a berthage fee based on physical size (LOA) of Vessel when it utilizes a berth owned by the Port Authority, as well as the Vessel's length of stay at a berth, from the time when the first line is made fast to when the last line is cast off. The berthage fee also applies to Vessels that are fastened to or tied up alongside any other Vessel occupying a berth. Berthage fees are intended to help recover investments and costs associated with the wharf apron and berth dredging and maintenance. The User is charged berthage fees as set out below.

Subject to the provisions of the Port Authority Fee Document, berthage fees are not payable in respect of the following Vessels:
